Hal: Here are copies of the one piece I aired on Popkin and three recent stories I did on Macdonald...
In the Popkin script; the first tape insert is a portion of an interview wherein he says that"as it turns out, John Kennedy was killed by a man named Joe...but the most interesting thing about my new material is that we know know why and how it was done". The second tape insert was a brief one and is at it appears...

The three on Macdonald are as indicated in the scripts...
